

Reopening Additional Information Statement

Greetings West Kingdom,

We have discussed the Board of Directors guidelines for resuming in person activities, and local and state guidelines. Our goal is to return the West Kingdom to normalcy, while doing our best to keep everyone safe and healthy. We are continuing to evaluate State and local guidelines, and will modify reopening plans as appropriate if conditions change.

Based on state and local guidelines, in person activities in the West Kingdom are canceled through July 31, 2021. We hope with all the positive progress we are seeing with COVID around vaccinations that we will be able to start the reopening process here in the West Kingdom.

The first planned step in resuming in person activities will be to resume in person local fighter practices and local business meetings and gatherings after August 1, 2021. This is assuming that continued positive direction is maintained concerning COVID, and that state and local guidelines allow gatherings.

The second step to resuming in-person events will be holding Fall Crown. We will provide an update regarding Fall Crown the last week of July. We are also monitoring current State reopening plans regarding convention type events to determine if an indoor 12th Night event will be viable. Final decisions regarding 12th Night will be made first week in August. This will lead us to knowing if Crown will be a two part event where our heirs step up that weekend, or if we can hold a 12th-night event for coronation. Our first choice to have a 12 Night event like normal and get the kingdom back to our standard schedule of events. It is also important to share with you all that We may have to restrict the number of people on site and it is possible that this event will not be a camping event.

We understand it is likely that local restrictions in some areas of the West Kingdom may allow for in person gatherings sooner. If a group meets their local restrictions and desire to resume in person activities, the local Seneschal can request a variance from Us, which We will consider.

Vaccination rates continue to increase and We believe that as more people are fully vaccinated, that restrictions will continue to ease. We share your desire to resume in person activities, and urge you all to hold steadfast for a while longer.

Uther, Rex Vera, Regina

Baron Gavin, Kingdom Seneschal
